

Empowering for Professional Excellence

NED ACADEMY

(The Training Wing, NED University of Engineering & Technology)

Over 25 Years of Excellence in Human Capacity Building

NED ACADEMY

The Training Wing, NED University of Engineering & Technology, with a clear goal of “Grooming Professional Leaders for Tomorrow”. NED Academy caters to educational and professional training needs for the continuous upgrading of youth and working professionals. NED Academy promises ambitious learners belonging to any educational background and at any level a chance to choose, broaden, and enhance their careers. The opportunities provided through our courses ensure professional excellence for anyone ambitious with life goals. NED Academy stands for not only professionally sound education but also believes in creating multi-talented profiles that have the flexibility and depth to be oriented easily toward the ever-changing dynamics of professional deliverance via working with techno-managerial skills along with leadership & entrepreneurial skills to achieve personal, and professional, organizational and national success.

MESSAGE BY DIRECTOR GENERAL ACADEMY

PROF. DR. BILAL ZAHID
DIRECTOR GENERAL

Established in 1998 as the Centre for Continuing Engineering Education (CCEE) and later rebranded as the NED Academy in 2008, our institution has made remarkable strides in continual advancement and nurturing students, youth, and professionals. From its inception, the Academy has embarked on a transformative journey, offering technical concise courses and comprehensive programs encompassing soft skills. The training initiatives tailored to international certifications and the specific demands of the local market are of equal significance.

Our course catalog spans a spectrum, ranging from swift one-day sessions to year-long postgraduate diplomas, meticulously designed to cater to the diverse requirements of individuals and organizations. In tandem with capacity-building needs, we dedicate ourselves to instilling the appropriate mindset within our emerging leaders, equipping them with foresight and entrepreneurial acumen.

Our vision extends beyond mere societal fulfillment, aiming to revolutionize and elevate our nation to a preeminent position on the global stage. We aspire to meet society's needs and effect transformative change, propelling our country into a leadership role internationally.

OUR OBJECTIVES

- Updating professionals with state-of-the-art developments in engineering/sciences/technology/engineering management/leadership skills/ Digital skills/ soft skills/ CAD & CAE skills/ linguistic/ entrepreneurship etc.
- Providing learning opportunities for improving career growth and making our professionals globally competitive
- Providing hands-on learning opportunities for vocational and technical training to improve industry employability & growth
- Offering structured courses, certification programs, international exam preparations, undergraduate and postgraduate diplomas, and other programmes in market-oriented disciplines for the creation as well as sustainable development of globally competitive human capital.

ACADEMY CONTRIBUTIONS TOWARDS SOCIO-ECONOMIC DEVELOPMENT OF PAKISTAN

NED Academy is endeavoring to create the mindset and right human capital at all levels starting from our youth to our engineers to other professionals to top leaders of technical or non-technical organizations. With this spirit, we have our door open for all types of audiences including the underprivileged and endorse who lack finances to support their development and career progression. To achieve the same NED Academy always reaches out to our alumni and philanthropists to help NED Academy to develop a sustainable mechanism for not only managing the training cost of such an audience but also enhancing the effectiveness of academy ventures by institutionalizing state-of-the-art labs, smart classrooms, online training setups, virtual training setups, etc. We already have a financial assistance mechanism for supporting the financially constrained participants with limited funding coming from external sources. We strongly believe that with continuous support from NED Alumni and other philanthropists, NED Academy can create a much larger impact on the socio-economic front than what it has been able to achieve now.

OUR CENTRES

Centre of Continuing Engineering Education (CCEE)

Centre for Continuing Engineering Education, the most active wing of NED Academy enables professionals to attain higher levels of research, teaching, and industrial cooperation for technical leaders for constant learning by empowering them with the relevant knowledge, skills, techniques, and technology base to help them outshine in their careers. It brings together new practitioners, technologies, and experiences for the mutual benefit of all concerned. CCEE regularly conducts short courses to update engineers, and professionals with recent developments in engineering, management, IT, and Sciences. It provides opportunities for working engineers to improve their qualifications to meet the professional body's registration level after successful completion and to enhance their skills to improve employability.

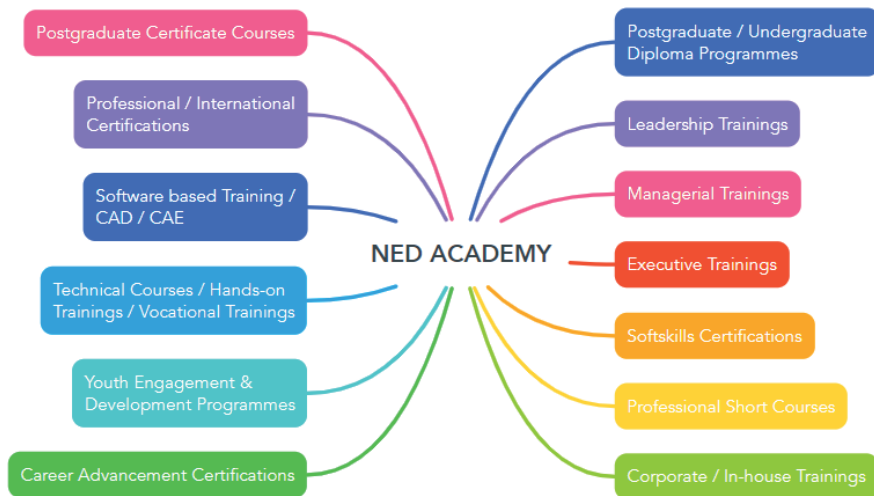

Centre for Multidisciplinary Postgraduate Programmes (CMPP)

Centre for Multidisciplinary Postgraduate Programmes facilitates executives, mid-career phase, and novice professionals to the next level of excellence. The center offers more than thirty-five Postgraduate Diplomas (PGDs) and more than fifty Postgraduate Certificates (PGCs) in a range of diversified and highly sought-after disciplines including Computer Science & IT, Engineering, Engineering Management, Management Sciences, Textile & Garment, Basic sciences, English Linguistics, and English Language Teaching. The center has remarkably expanded its scope and programmes since 2020 and continuously endeavors to broaden its horizon to cater to the needs of the national and international professional community.

OUR DOMAINS

NED Academy, a name of guaranteed excellence, is well aware of the challenges faced by graduates and professionals in the real world. To assist them in conquering these hurdles, NED Academy conducts a series of programmes in various domains. Some of them are as follows:
